OFFICE PERKS :))

THIS MONTH'S OFFICE:

The Arizona Foundation for Medical Care in Phoenix offers its 71 employees some great perks. Not only do employees get free flu shots,

they have what are called "holiday half days."

Jennifer Robinson, Arizona Foundation for Medical Care director of business relations and communications, says employees get to leave early the day before any major holiday. They even were allowed to leave early on Halloween.

"It's really an opportunity for the employees to get a jump-start on their weekend," Robinson says. "Everybody jumps out the door as soon as they can go."

WORK IS HARD ENOUGH.

Arizona Woman wants to recognize the best office perks in the Valley. Does your place offer free massages? A barista in your lobby? We want to hear about it. Send your "perk" to azwoman@pni.com.
